Third UPT2S Virtual Meeting / APP (IO2) / Transnational Meeting in France / Key Project Updates

Co-funded by the Erasmus+ Programme of the European Union

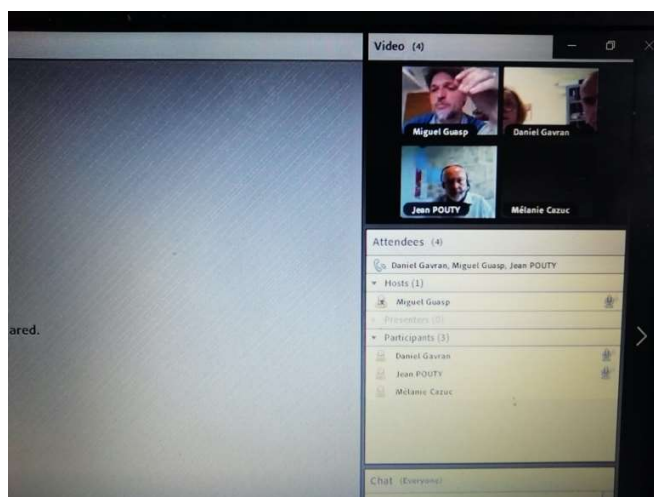

1.- Third UPT2S Virtual Meeting via eTwinning: Check and Second Feedback about the progress of (IO1): Units of training Course for trainers

On 8th July the UPT2S project partners held their third virtual meeting via eTwinning.

We produced the second feedback about the units (IO1). All partners continue to efficiently develop their units focused to provide VET DUAL SYSTEM trainers a high-level on-line training course and other resources that allow them to solve the issues that arise during the internship period.

The international partnership members are working hard including different resources such as links, webs, real and practical examples in order to provide further information to trainers.

If you would like more information about the UPT2SProject, email us at info@malvesia.org or call +34 962 55 04 20

2.- Logo of the APP (IO2)

Currently an IT company is advising us to develop the Evaluation APP for trainers involved in VET DUAL System. Due to COVID-19, the progress of the APP has been delayed because the students involved in the project have not been able to follow the course practically due to the interruptions.

However, the APP Project Manager has requested all partners to send him the APP logo.

The partnership discussed that it could be interesting to involve their students (of all partners) in the creation of the logo of the APP through a drawing competition, in which all students of each partner country will be able to participate.

This innovative proposal was accepted by all partners because it allows students to acquire more knowledge in Information and Communication Technologies (ICT) and it proves to be a great motivation and challenge for educational centers involved in.

In the next meeting, all members need to agree the conditions to participate in this drawing competition, tools, level of education. The most important question is that it must be a global project for the singular students as well as for the whole schools

At the same time the partnership continues discussing and developing contents about evaluation of the internship period that will be introduced in the APP.

3.- Transnational Meeting in France will be held on October, depending on the evolution of the Covid-19

From the 1st July we will be allowed to travel freely abroad, with total guarantee in terms of safety for the travelers.

All partners agreed that is important to monitor the evolution of the virus in Europe during this summer. If everything goes in a good way, they decided that the France Meeting will be held on the 12th and 13th October.

However, the final decision about the exact date will be taken in the next meeting at the beginning of September

Key Project Updates

1. Third virtual meeting: Second feedback about the units of the online course for trainers involved in Vet Dual System

2. International drawing competition for the creation of the logo of the APP

3. France Meeting in October depending on the evolution of the virus
